

Airless Plastic Welder Model 7

The Airless Plastic Welder is a complete kit to repair all kinds of plastic, including: PP (Polypropylene), ABS (Acrylonitrile Butadiene Styrene), PE (Polyethylene), PUR (Polyurethane) and (PA) Polyamide/Nylon plastics and components.

Additional Information

- Ideal for repairing problem thermoset plastics like PUR (Polyurethane) with ease.
- PUR bumpers can now be repaired, avoiding disposal.
- Temperature control allows the perfect temperature to be set for all types of plastics.
- 200W ceramic core element - 230V.
- Includes two replaceable welding tips, which are also available as spares. Please see Part No. 92494 (Tube Welding Tip) and Part No. 92495 (Welding Iron).
