

Arch Hook - Large

Ideal for removing slight dents and creases in wheel arches. Simply hook under lip of wheel arch for pulls without bulging or mis-shaping the panel.

Additional Information

- 315mm wheel arch puller.
- 1.5 tonne pull capacity.
- Two different pulling faces offer choice of curvature to fit most cars.
- Also useful for radiator supports, tail light openings or any lightweight panel pulling tasks.
- Small version also available, please see Part No. 91075.
