

Run Razor

This unique tool is used to eliminate runs and sags in fresh paintwork. Normal methods will result in the repair area becoming enlarged causing extra re-work.

Additional Information

- Eliminates runs & sags in fresh paintwork.
- Simply dial the blade until it touches the run & gently pass over the surface.
- Continue dialling and shaving until the surface is flush & ready for colour sanding.
- The blade is angled to avoid "ploughing".
- Spare blades available, please see Part No. 92523 (steel) & 92301 (plastic).
