

Hy-Jacks - 1 Pair

Pair of hydraulic vehicle positioning jacks easily fit around tyres lifting the car in seconds, allowing vehicles to be easily moved into required position. Due to their size, these Hy-Jacks are a great mobility solution for use in tight areas or for immobilised vehicles.

Additional Information

- Suitable for maximum tyre width 305mm, 12" width wheel.
- Adjustable range: 345 - 630mm.
- Capacity: 1360kg per pair (SWL: 680kg each).
- Equipped with 4 nylon castors per unit.
- CE & UKCA compliant.
